

LIONBRIDGE FOR SITECORE

Simplify Multilingual Content and Delight Your Web Visitors

An effective website requires diligent management of various multi-application, multi-author content scattered throughout your organization. For today's global companies managing multilingual websites, that complexity can be overwhelming.

If you use Sitecore, you're in luck—the Lionbridge Connector for Sitecore lightens your multilingual content management burden.

LIONBRIDGE

Your Challenges

Growing volumes of customer-facing content

Huge backlogs of untranslated content

Content gaps for critical markets

Increasing content complexity, including multimedia and interactive content

Need to balance speed, quality, and cost

More Relevance in More Markets

With the Lionbridge Connector for Sitecore, you can easily create and manage multilingual content from within the familiar Sitecore environment. We built our cloud-based plug-in, which uses an agile content process to enable faster translation, on industry-leading technology. You can set it up quickly and easily, with no special IT support or training.

The Lionbridge Connector automates the transmission of your content between Sitecore and Lionbridge's translation technology, so you can create multilingual websites more quickly and easily. Manage your site in one central language and instantly export and re-import any and all content for localization, so your multilingual sites stay current.

Optimized Multilingual Content Management

More Sitecore sites connect with Lionbridge than with any other translation company. Choose Lionbridge for Sitecore and master the multilingual web:

- **Enable the Power of Single-Source Publishing:** Reuse the same source content across your digital channels. Edit source content once, then recycle content prior to translation to minimize updates.
- **Simplicity Rules:** Start and manage translation projects seamlessly. Select your content, specify your desired output language(s), and click "translate" to automatically trigger the creation of a new project for Lionbridge.
- **Save Time Every Day:** Eliminate copying, pasting, and other tedious tasks. Highly-automated multilingual content management reduces the burden on your busy staff.

Solution Highlights

- Deliver an end-to-end global content supply chain
- Simplify and streamline translation projects via a controlled workflow
- Keep multiple language sites up-to-date and consistent
- Reduce localization costs and time
- Increase your ability to respond to local market demand

One Connector, Endless Connections

Our automated connectors pair with your technology stack and support the full range of Lionbridge Global Digital Marketing Services:

- Multilingual Website Optimization
- Multilingual Digital Campaigns
- Visual Adaptation
