

LIONBRIDGE CONNECTOR FOR WORDPRESS

The Easiest, Fastest Path to High-Quality Multilingual Content

WordPress is the world's most popular CMS for good reason—its open-source architecture is affordable, easy to manage, and supportive of dozens of industries from news to ecommerce to education and government.

It is also infinitely customizable, with over 50,000 plug-ins designed to connect your content more closely to your audiences. In fact, dozens of WordPress plug-ins support translation—but only one delivers Lionbridge quality.

Don't jeopardize your global opportunities with low-quality translations. You're just a plug-in away from quickly-produced, high-quality multilingual content that amplifies your brand voice and engages customers in all markets.

LIONBRIDGE

Fast & Easy End-To-End Translation Management

Lionbridge for WordPress is a complete solution for your multilingual web content needs. It uses the WordPress Multilingual (WPML) plug-in to connect you directly to Lionbridge.

We know you need quality translations quickly and easily within WordPress, and we designed our solution around those needs. You get great quality translations without leaving the platform, without copying and pasting any files, and without worrying that your translated content will cost more than estimated or take longer than promised.

How It Works

Taking your brand global with WordPress and Lionbridge is easy. Once you've installed and activated the plugin, simply open it and:

- Select content for translation into your choice of 80+ available languages
- Track the progress of all your jobs
- Receive your translated content on or before the quoted delivery date
- Monitor overall spend, projects, and control user access

Hundreds of brands trust Lionbridge for their translation needs. Our innovative platform, content quality, and global network of translation professionals have earned us the highest customer satisfaction and Net Promoter Scores in the industry.

Benefits
