

LIONBRIDGE ONDEMAND FOR WORDPRESS

The Complete Solution

- **Lionbridge onDemand for WordPress is a complete solution for your web content translation needs.** Easily translate your WordPress content through the preferred integration method for WordPress – WordPress Multi-Lingual for Translation Management – that can be deployed in a day.
- **Lionbridge onDemand is the translation solution of choice for all translation needs.** 665 companies switched to Lionbridge onDemand last year alone from other providers and Lionbridge onDemand boasts the highest customer satisfaction and Net Promoter Scores in the industry. Most clients choose not only Lionbridge onDemand for WordPress but also to send all of their translation needs through a common process.
- **All content types supported:** Your website contains multiple file types (html, video, InDesign, etc.) and all are fully supported by onDemand with automated quoting and delivery dates. Other providers must manually inspect multimedia files resulting in delays and higher costs.

WORDPRESS

UNIQUE BENEFITS

Here are some reasons why Lionbridge onDemand for WordPress is the preferred option:

Never miss deadlines again: Submit translations 24/7 from anywhere in the world and automatically receive a system generated delivery date. Lionbridge onDemand consistently delivers early or on-time over 99%+ of time against these commitments.

No hidden fees: The quotes we provide are fixed quotes with no additional charges added after processing.

No budget surprises: Automated quotes are provided for every submission and spend against your POs can be tracked in real-time.

No technical issues: Our technical support team will engage with your technical team and ensure project success.

Support from your global teams: Ensure your brand voice is effectively applied across all content you translate. We work closely with your teams across all languages and geographies to develop linguistic assets that embody your brand voice and ensure consistent application across all content types and sources.

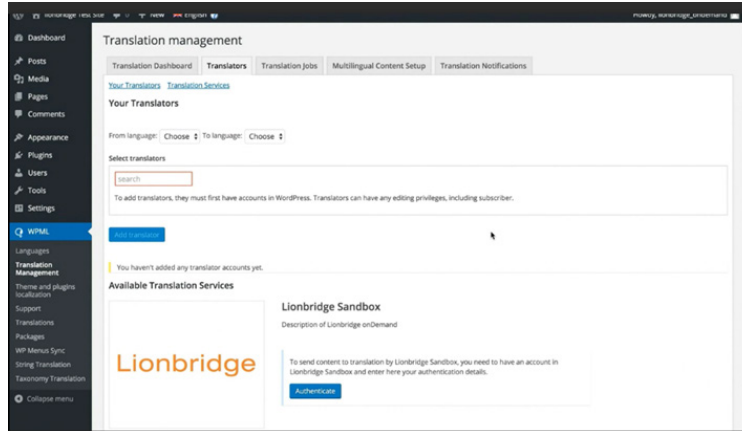

WORDPRESS

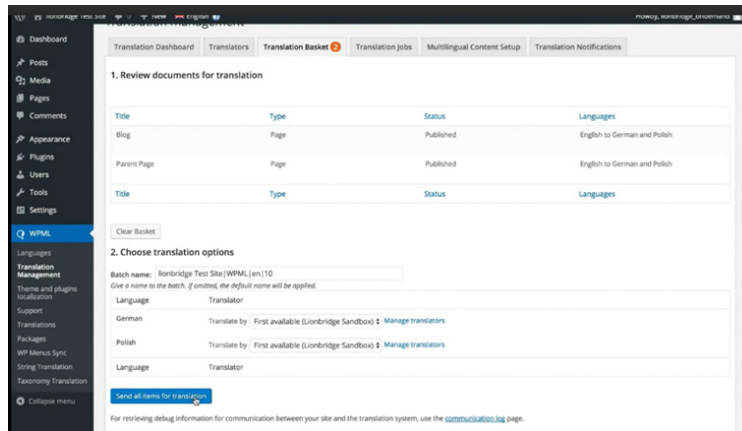

EASILY TRANSLATE CONTENT WITH LIONBRIDGE ONDEMAND FOR WORDPRESS

Our approach is the preferred integration method for WordPress – WordPress Multi-Lingual for Translation Management. The process is as simple as opening the plugin, sending content for translation and tracking status for completion all from within WordPress.

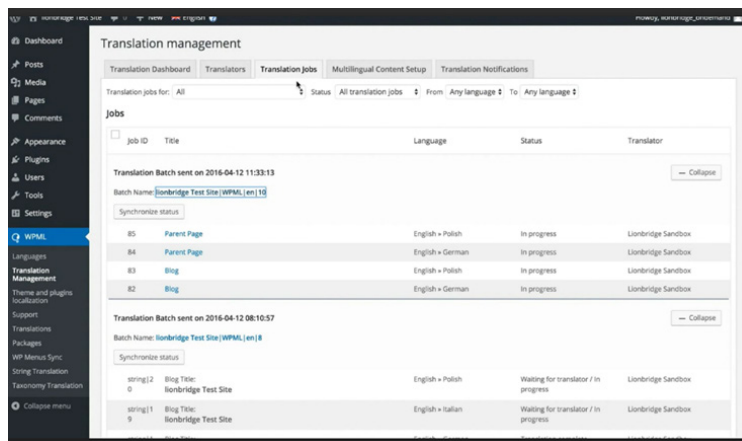

- 1 Open Lionbridge onDemand plugin in WordPress

- 2 Select content and submit for translation within WordPress

- 3 Track status of jobs within WordPress

Finally, you can access your account 24/7 through our onDemand self-service portal to review spend against POs, manage user access, and submit content outside of WordPress. Our Customer Success Manager is available to support any other needs you have to ensure success.
